	Yesterday clay shooting and pub lunch. Had only one beer. Slight headache in the evening so took paracetamol. Later took ibuprofen and went to bed about 23:20. Woke up with slight headache which increased. Took ST.
2019-04-27	Long trip to cinema at 13:00, 3h film with two beers, then glass of white wine at a delicatessen with delicious cheese. I felt fine after movie but migraine began on exiting the cheese shop. Took sumatriptan which helped a little bit I kept feeling sickly from 6pm until 10pm. The trip home was problematic and noisy, which didn't help.
2019-04-25	
2019-04-19	Woke up with a bad hangover and possibly stomach problem from seafood yesterday. Threw up. Went clay shooting. Nausea disappeared but headache started increasing so took sumatriptan around 1pm.

2018-12-31	Depressed with my shitty marriage and family relations. Went to bed with a headache and woke up with it too.
2018-12-01	In spite of imigran headache did not pass over night. Woke up with increasing pain and took again at 6am. Slept a bit. Headache soon came back. In the afternoon I took imigran again. Headache is gone for now.
2018-11-30	Felt slow most of the day. Creeping headache in the evening quickly increased. Took imigran, played a bit computer game, went to bed. Recently: due to cold medication a lot of paracetamol. Some milk chocolate. Due to bad cold no exercise in a week. Contact lenses old. Note: headache never quite passed and woke with increasing pain.
2018-11-16	Muscle ache associated headache from yesterday remained lightly in the morning but increased slowly.
2018-11-06	Woke up fine but in the morning felt sharp pain behind right eye as bad sign. Went running in the gym and though the problem disappeared, but in the afternoon had an increasing headache (not sharp pain) and took imigran at about 14:30. Day before was normal 5k run. Last few days had consumed occasional Halloween sweets.
2018-10-27	Slept well and long. Played X-com game for a few hours. Noticed tenseness and hint of headache so stopped. Went to read at cafe. Suddenly pain developed into sharp pang in right side behind the eye. Tried to relax but nausea and discomfort made reading impossible. Took imigran.
2018-10-25	Woke up with headache so took imigran. Probably triggered by muscle ache from going back to the gym after long hiatus and vacation. Rie back and snoring reduced quality of sleep too.
2018-10-13	long car ride with in-laws on winding roads and partially high altitude - took triptan before bed. Next day almost repeated experience but after high altitude hiking took ibuprofen twice and managed to control migraine (avoided alcohol to the chagrin of in-laws)
2018-10-12	
2018-10-09	travelling, poor sleep, and then had a few drinks (no excess) with friends evening before. After taking sumatriptan around 3am slept until 11am, however woke up with a slowly increasing headache and eventually had to take sumatriptan again around 1pm.
